

Oystashell ID wi-fi covers deep Secure WiFi protection

Following the wider roll out of WiFi points across Mental Health Hospitals across the UK. Ensuring patients safety we are aware that WiFi points must

- Placed in the open on a wall or ceiling so that they have maximum range
- Protected from damage, theft or interference
- Prevented from providing a ligature point
- Ventilated to provide air flow

Dimensions: 470x470mm highest part of the dome 118mm

Cleaning To clean wipe down with a damp cloth, no chemical cleaners

The Benefits

The unobtrusive design means it blends into the background reducing the likelihood of damage.

Oystashell® offers minimal resistance to the WiFi carrier wave – typically a drop of only 1 dB.

Anti-ligature - It features large rounded corners and is built to completely cover a WiFi unit.

Air holes for cooling and available with or without an Ethernet hole to allow a wire from the adjacent data socket.

Made from 3mm polycarbonate used for Police riot shields. preventing abuse and damage to the WiFi unit. Oystashell® is very easy to install using four Size 8 dome-headed hex-star security screws and 5.5mm rawl plugs.
